Guidance		
<b>Model Certificate Template for canned/retorted products and edible collagen</b>		
<b>Part 1: Consignment information</b>		
1.1. Consignor (Exporter): Name: Address:	1.2. Certificate reference number:	1.3. Competent Authority:
1.4. Consignee (Importer): Name: Address:		
1.5. Country of origin:		
1.6. Country of destination:		
1.7. Place of origin: Name: Address:		
1.8. Place of shipment:	1.9. Date of departure:	
1.10. Means of transport: <input type="checkbox"/> Aeroplane <input type="checkbox"/> Ship Identification:	1.12. Commodity intended for use: <input type="checkbox"/> Human consumption	
1.11. Description of commodity:		
1.13. Temperature of commodities for transport: <input type="checkbox"/> Ambient	1.14. Total number of packages:	
1.15. Identification of container/serial number:	1.16. Type of packaging:	
1.17. Identification of commodity:		
Species (Scientific Name)	Net Weight	Lot ID/Code

<b>Part 2: Official Certification</b>	
<b>Country:</b>	Certificate reference number:
<p>I, the undersigned Official or Official Veterinarian, certify that the product described above satisfies the following requirements: Delete clauses not applicable to the product for import.</p> <p><b>Non-canned retorted animal products for human consumption</b></p> <p>(1) The animal product has been heat-treated in a hermetically sealed container with a F0 value of 3 or more.</p> <p><b>Canned and non-canned retorted animal products for human consumption (applicable to <i>Bos taurus</i> and <i>B. indicus</i>)</b></p> <p>(2) The animal products were entirely derived from cattle born and continuously raised in a country, zone or compartment posing a <b>negligible BSE risk</b> in accordance with the Code; and,</p> <p>a) The cattle from which the meat products were derived passed ante- and post-mortem inspections; and</p> <p>b) Where there have been indigenous cases of BSE in the country of export, the meat products were derived from cattle that were born after the date from which the ban on the feeding of ruminants with meat-and-bone meal and greaves derived from ruminants had been effectively enforced; or</p> <p>(3) The animal products were entirely derived from cattle born and continuously raised in a country, zone or compartment posing a <b>controlled BSE risk</b>, in accordance with the Code; and</p> <p>a) The cattle from which the meat products were derived passed ante- and post-mortem inspections; and</p> <p>b) The cattle were not subjected to a stunning process, prior to slaughter, with a device injecting compressed air or gas into the cranial cavity, or to a pithing process, and</p> <p>c) The fresh meat and meat products were produced and handled in a manner which ensures that such products do not contain and are not contaminated with:</p> <p>i) The tonsils or distal ileum of cattle of any age; and</p> <p>ii) The brains, eyes, spinal cord, skull and vertebral column of cattle that were over 30 months of age, and</p> <p>iii) Mechanically separated meat from the skull and vertebral column from cattle over 30 months of age.</p> <p><b>Collagen (edible) that is prepared from hides and skins, or tendons (applicable to <i>B. taurus</i> and <i>B. indicus</i>)</b></p> <p>(4) The collagen has been prepared exclusively from hides and skins, or exclusively from tendons.</p> <p><b>Collagen (edible) that is prepared from bones (applicable to <i>B. taurus</i> and <i>B. indicus</i>)</b></p> <p>(5) The product originates from a country, zone or compartment having a <b>negligible BSE risk</b>; or</p> <p>(6) The product originates from a country, zone or compartment having a <b>controlled BSE risk</b> and are derived from cattle which have passed ante- and post-mortem inspections; and that</p> <p>a) Vertebral columns from cattle over 30 months of age at the time of slaughter and skulls have been excluded; and</p> <p>b) The bones have been subjected to a process which includes all of the following steps:</p> <p>i) degreasing;</p> <p>ii) acid demineralisation;</p> <p>iii) acid or alkaline treatment;</p> <p>iv) filtration;</p> <p>v) sterilisation at &gt;138 degrees Celsius for a minimum of 4 seconds.</p> <p><b>Collagen (edible) derived from animal species other than <i>B. taurus</i> and <i>B. indicus</i></b></p> <p>Note: no other certification requirement except the animal species as shown in box 1.17 of this certificate is neither <i>B. taurus</i> nor <i>B. indicus</i>.</p>	

<p><b>Official or Official Veterinarian</b></p> <p>Name:</p> <p>Address:</p> <p>Email:</p>	<p>Signature:</p> <p>Date:</p> <p>[Official or Official Veterinarian signature, Official stamp and date]</p>
